**Global Transplantation Science Leader One Lambda selects  
Microsoft Dynamics AX and Armanino Consulting  
to Improve Business Processes and Operations**

**SAN RAMON, CALIF., Jan. 17, 2012** — Armanino Consulting today announced that One Lambda, a transplant diagnostics company, selected Microsoft Dynamics AX as its comprehensive enterprise resource planning solution to streamline the growing company's operations. The Microsoft Dynamics AX ERP solution helps improve efficiency, allows for better visibility into the entire organization, and reduces IT complexity for midsize and enterprise organizations. Armanino Consulting is a leader in providing systems implementation and business process consulting to the life sciences industry.

One Lambda's products are used by transplant centers worldwide to determine the best possible match between organ and bone marrow donors and potential recipients, as well as to determine antibody levels pre and post transplantation as mechanism to monitor possible organ rejection. The company offers approximately 275 products across seven product lines using the industry's most sophisticated technologies.

Armanino Consulting will support One Lambda's growing and complex enterprise through the implementation of Microsoft Dynamics AX to:

- Enhance productivity through automation and consolidated data sources
- Ensure quality management and FDA compliance throughout the organization's operations
- Integrate flexibly with other software systems at the company
- Provide a user-friendly system that offers easy access to information and analytical tools

One Lambda manages its business with a variety of Microsoft products, including Sharepoint, MS Office, MS SQL Server Reporting Services and more.

**About One Lambda**

One Lambda is the world leader in transplantation science. Backed by a legacy of leading scientific innovations, publications and research experience in the human leukocyte antigen (HLA) field that extends over 50 years, One Lambda provides the most complete offering of HLA antibody testing and typing products on the market. Founded in 1984 and based in Canoga Park, Calif., the company produces and sells the highest quality HLA molecular (DNA), antibody detection, and serological testing products to hospitals, research centers, and institutions involved in solid organ and bone marrow transplants. More information may be obtained by contacting the company directly or by visiting its website at <http://www.onelambda.com>.
